

ARASADA AKHIL

+91 9347092236 — arasadaakhil.mail@gmail.com — [LinkedIn](#) — [GitHub](#)

Professional Summary

Software Developer with 1.5+ years of experience in backend development and team coordination, specializing in .NET Core, C#, ASP.NET Core Web API, and MS SQL Server. Proven ability to lead technical initiatives, mentor junior developers, and deliver scalable API solutions. Experienced in Agile methodologies, sprint planning, effort estimation, and coordinating with cross-functional teams including frontend developers. Strong foundation in RESTful API development, microservices architecture, and cloud technologies.

Technical Skills

Backend Technologies:

- .NET Core, ASP.NET Core Web API, C#, Entity Framework Core, ASP.NET MVC
- RESTful API Development, Microservices Architecture, Background Jobs & Worker Services
- Async Processing, SignalR for Real-time Communication

Database & Cloud:

- MS SQL Server (Advanced), PostgreSQL, MongoDB
- Stored Procedures, Triggers, Query Optimization, Indexing Strategies
- Azure (App Service, Azure DevOps, CI/CD), AWS Basics

Frontend & Integration:

- React.js, Angular basics, JavaScript, HTML5, CSS3, Bootstrap
- API Integration, Cross-team Coordination

Tools & DevOps:

- Git, GitHub, Azure DevOps, CI/CD Pipelines
- Visual Studio, VS Code, Postman, Swagger
- JIRA, Agile/Scrum, Kanban

Leadership & Planning:

- Team Mentoring, Code Reviews, Sprint Planning
- Effort Estimation, Task Allocation, Stakeholder Communication
- Technical Documentation, Low Level Design (LLD), High Level Design (HLD)

Professional Experience

Revalsys Technologies

Mar 2026 – Present

Lead Dotnet Developer

Hyderabad, India

- Led the development and delivery of RevalERP, a comprehensive SaaS-based POS and ERP platform managing diverse business modules including HRMS, Finance, POS, CMS, Ticket CRM, Procurement, Sales, and Project Management.
- Conducted sprint planning, task assignments, and regular status reviews to ensure smooth project execution and team alignment.
- Oversaw feature releases and sprint deployments into production, ensuring quality, stability, and timely delivery across multiple modules.
- Coordinated with cross-functional teams to manage dependencies and resolve technical challenges across HRMS, Finance, and Project Management modules.

Sphinx Worldbiz Limited

Sep 2024 – Feb 2025

Junior Software Developer (Team Coordinator)

Noida, India

- Leading a team of 2 backend developers in developing and maintaining enterprise HR management modules using ASP.NET Core, C#, Entity Framework Core, and SQL Server.
- Coordinating sprint planning, effort estimation, and task allocation while ensuring adherence to coding standards and best practices through regular code reviews.
- Collaborating with UI team (React developers) to ensure seamless API integration and resolve cross-functional technical challenges.
- Designed and developed scalable RESTful Web APIs with authentication, authorization, and role-based access control for internal and client-facing applications.
- Led the migration of legacy ASP.NET Framework applications to .NET Core, improving application performance by 35% and reducing maintenance overhead.
- Optimized SQL Server database operations by implementing stored procedures, triggers, and advanced indexing strategies, reducing query execution time by 40%.
- Managed Azure DevOps pipelines for CI/CD, version control, and deployment processes, ensuring smooth production releases.

- Participated in client coordination meetings to gather requirements, provide technical recommendations, and deliver project status updates.

Virtusa

Software Engineering Intern (Backend Development)

Dec 2023 – Dec 2024

Hyderabad, India

- Developed backend services for an AR-based video calling platform using .NET Core for session management and real-time communication.
- Built RESTful APIs for user authentication, session handling, and integrated Unity AR SDK with backend services.
- Worked with senior developers to understand architectural patterns and implement background worker services for async task processing.
- Collaborated with cross-functional teams to ensure smooth integration between frontend, backend, and AR components.
- Participated in daily standups and sprint retrospectives, gaining experience in Agile development practices.

Projects

SHRMPro – HRMS Platform

sphinx.shrmpro.com

- Led development of core HRMS modules using ASP.NET MVC and .NET Core for employee management, attendance tracking, and payroll processing.
- Architected RESTful APIs following microservices principles to enable modular and scalable system design.
- Developed reporting dashboards with data visualizations by creating optimized backend APIs with complex SQL queries.
- Implemented role-based access control (RBAC) and multi-tenant architecture for secure enterprise operations.
- Coordinated with team members for sprint planning, task prioritization, and timely delivery of features.

SkillOn – ATS Resume Analyzer & Career Platform

skillon.netlify.app

- Developed full-stack career platform with React.js frontend, ASP.NET Core Web API backend, SQL Server database, and Google Gemini AI integration.
- Designed and implemented intelligent ATS (Applicant Tracking System) analyzer achieving 95% accuracy in resume parsing and compatibility scoring.
- Built comprehensive resume builder with real-time ATS optimization, keyword suggestions, and professional templates.
- Deployed application using Azure App Service for backend API and Netlify for frontend with automated CI/CD pipeline.
- Implemented background job processing for resume analysis tasks to ensure responsive user experience.

College Bus Live Tracking System

github.com/arasadaakhil/bus-tracking

- Developed Android application with real-time GPS tracking using Firebase Realtime Database and Google Maps API.
- Built backend API services using ASP.NET Core and PostgreSQL for route management and tracking data persistence.
- Implemented push notifications using Firebase Cloud Messaging for bus arrival alerts and route updates.
- Designed RESTful API endpoints for mobile app integration with proper authentication and data validation.

Education

Jawaharlal Nehru Technological University, Anantapur

2020 – 2024

Bachelor of Technology in Computer Science & Engineering

CGPA: 7.51 / 10.0 (73.92% - First Class with Distinction)

- **Relevant Coursework:** Data Structures & Algorithms, Advanced Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Compiler Design, Software Engineering, Software Project Management, Software Testing, Operating Systems, Cloud Computing, Machine Learning, Artificial Intelligence

Certifications

Microsoft Certified: Azure Data Fundamentals (DP-900)

[View Certificate](#)

Microsoft Certified: Azure AI Fundamentals (AI-900)

[View Certificate](#)

Microsoft Technology Associate: Introduction to Programming Using Python
